## Photoshop CS3

### Course Description

Adobe® Photoshop® is the most powerful photo editing software available. Whether preparing graphics for print or for the web, Photoshop® is the application utilized by most companies. Using Adobe® authorized courseware and led by a certified Photoshop Expert Instructor, students will learn how to: make color corrections, repairs, changes to selected portions of an image, and to work with layers, masks, channels, and vectors, to create composite images, and how to use filters to enhance images. The course will also show students how to create a website by slicing a web page graphic into HTML, generate a web page photo gallery, and animate a GIF image.

**The class can be taken as a two (2) day or three (3) day workshop.**

**Day 1** (9:00 AM to 4:00 PM)

#### Topics

The Work Area  
Adobe Bridge
