## Adobe Illustrator® CS4

### Course Description

Adobe Illustrator® is a comprehensive vector-based drawing program for print and the web. This means graphics that are infinitely scalable and resizable. If you need to create images that you can enlarge to practically any size, Adobe Illustrator® is the industry standard for designers. Whether preparing graphics for print or for the web, Adobe Illustrator® is used by a broad cross section of industries to create logos, product packaging and labels, clothing patterns, posters, billboards, drafting, engineering and more. Using Adobe's authorized courseware and led by a certified Adobe Illustrator® Expert Instructor, students will learn how to: Create and transform simple and complex shapes, work with color, format type, blend, brush and layer a variety of drawings.
